REASONS FOR ALLOWANCE

1. -The following is an examiner's statement of reasons for allowance: The closest prior art of record discloses catalytically active carbon impregnated with at least one heavy metal incorporated in the graphitic sheets of the active carbon. However, such art does not teach nor reasonably suggest further including sulfur or nitrogen ligation of the at least one incorporated metal contained within the active carbon. Therefore, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
